Your photography

EVERYTHING YOU'LL GET WHEN YOU BOOK ME

It's really important to find out exactly what you get when you book your photographer, so I've broken down everything you get when book me.

Relaxed photography

Natural, relaxed photography for as long as you'd like, with as much or as little direction as you'd like.

Fully insured

I have full public liability insurance. Venues often ask for my certificate, which I'm happy to send to them.

Edited photographs

Every image will be processed by me, so they are perfectly balanced, bringing out the best in every shot.

High resolution files

A file transfer of high quality files with no watermark, and full usage rights, to do with as you please!

Online gallery

Your photos will be available on your own webspace as a beautiful online gallery. You can share with family and friends instantly, and order prints directly!

Guest Wishes

A quirky alternative to a guest book; hand written messages from your guests, with a quick snap of them, put together in a polaroid style with their words!

REAL MOMENTS

Your wedding photography should feel natural, personal and completely true to you. From the big moments to the quiet in between ones, I focus on capturing the atmosphere, emotion and people that make your day what it is. No awkward posing, no constant interruptions, just honest storytelling with a thoughtful approach that lets you stay fully present throughout the day.

Whether you're planning something intimate or a full day celebration, the experience is always calm, relaxed and centred around you. Bespoke packages are also available on request.

Extras

MORE THAN JUST THE DAY

Pre-shoots

Pre-wedding shoots are the perfect way to get used to the camera. We spend half a day in your favourite location and create a really natural set of photos.

A typical pre-shoot is £500 and includes travel within 30 miles.

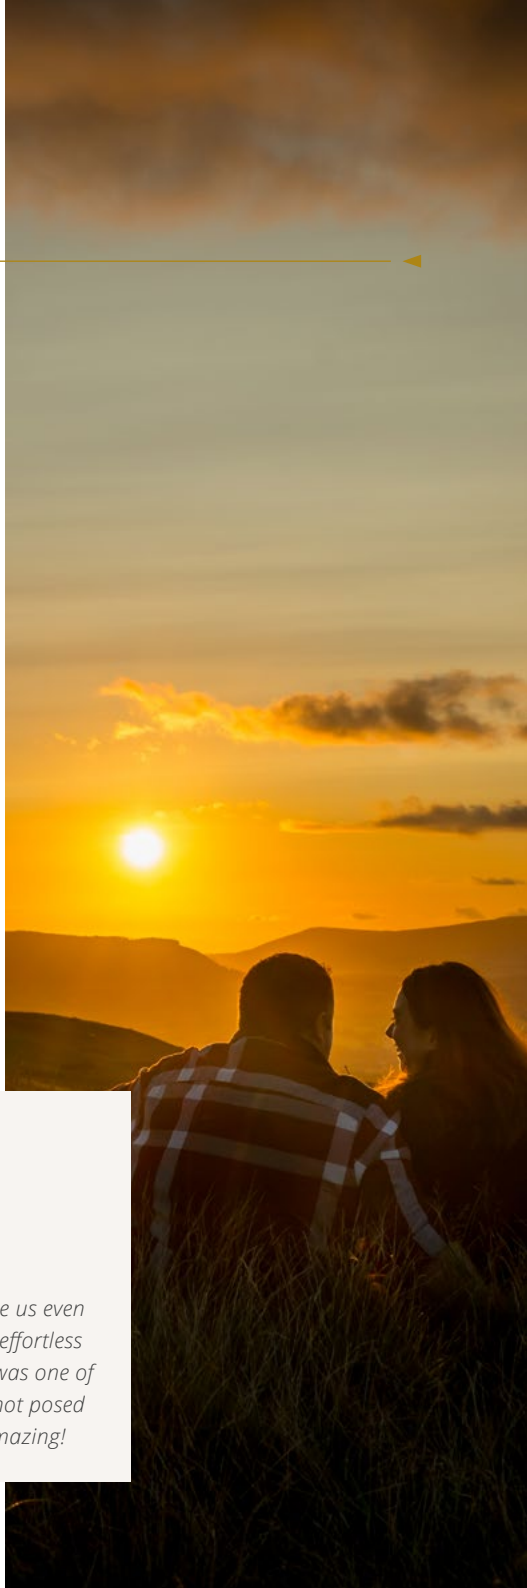
Keepsakes

We can order prints, canvases and thank you cards. I also offer gorgeous albums for the ultimate storytelling keepsake!

Albums can be added to any of my photography packages.

Tanya & Ryan

Andy listened to everything that we wanted gave us even more. He worked so hard, but made it look so effortless and we felt at ease the whole day. It felt like he was one of our family/friends. Most photos were natural, not posed and the photos that we ended up with are amazing!



Natural.
Authentic.
Emotional.
